Nagajuna Annual Magazine-2018

VOLUME: 2

From Yeshi's Desk

To educate young mind is to educate the next generation. With each new edition of our annual school magazine we look forward to share with you the milestone we have achieved in the following year. The

year 2018 was a remarkable one where we could see the hidden treasures of each individual. Also we are immensely glad to tell you that instead of printing the children's writing, we have left them as their own so that you know of their talents.

We strive to respect the unique individuality of each child and give the child the right kind of help. We believe that a child will be successful in life if we accept him/her as they are and inspire them to become what they want to become. They want to be liked, appreciated and to be respected by their individuality. We give lot of importance to make discipline a core value, encourage students to develop a sense of responsibility through a well planned academic schedule, House system, various Inter School, Inter

School competitions and Sports activities. By teaching them all these important values we expect them to grow up to independent individuals.

This year we had various new activities in the school like the general assembly every month, Inter school Dance Contest, Inter house Singing and Dance Contest, table tennis tournament, and more which has made us realize that education, knowledge has no bounds. Moreover, we would like to thank Miss Becky Shipton and Amber Warzybok from UK who visited our school and had raised fund for the school. With their gracious help, we were able to provide new and hands on learning for the nursery children.

Altogether, I would like to thank all the sponsors, trustees and all the well wishers who has made it possible for these children to study and live happily here at school. Our achievements wouldn't have been possible without your help. On behalf of the entire Nagajuna family, I would like to wish you all a Merry Christmas and a very prosperous New Year. May all that you wish for come true.

A note of Thanks To David

You are one of the special person
who always tries to give
who makes this children a better person
Just by the way you live.

Thanking you David, for giving, as we pray
For their need, Thanks giving this day
You feed the poor & blessed who gives
Helping each homeless life you save.

From Nagajuna family can't thank you enough
There's no sufficient word to say.
To someone who always gives
And hardly ever takes.

Please come back
Cause we are all waiting
We wishes you a speedy recovery
And a smaller hospital bill than we're all
anticipating.....

DREAMS

DREAMS are same like a imagine
that are so amazing
DREAMS are so bright
which are saw at night

DREAMS are same like a wishes
which is more precious
DREAMS are one think you can be find
which are survive in your mind

DREAMS are same like a light
that are always come in our life
DREAMS are ambition
which are so good in our propulsion

Name: Ravi Jaisang

My best friend

My best friend name is Muma. She is a beautiful girl. Her village name is Koprak. I like her. She likes me. She read in class two. Her best colour is pink. Her best animals is sheep. Her best girl is Pimata. Her best village name is Manang. Her best country is Nepal. Her best boy's name Dhan Raj. Her mother's name is Tismaya Gurung. Her best flower is Rhododendron. Her father's name is Suk Bahadur. Her sister's name is Salina and Rekha. Her brother's name is Dhan prasad. Her hair is black. Colour. Her best game is football. Her best teacher is Karna Thupton. Her best school is Nagajuna Maden Boarding.

Class: 2
- Himali

Take

Muakan

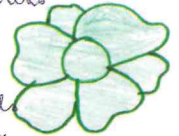

One day Ram asked one question to Shyam.
 Ram:- Shyam can I asked you one question?
 Shyam:- Yes, but what is the question?
 Ram:- If I give you 4 pens today and 4 pens tomorrow, how many pen will you have?
 Shyam:- 10 pens.
 Ram:- How?
 Shyam:- Because I have 2 pens in my bag.

I wish

I wish I were a billionaire to take my family all over the world. And gave them all the happiness what I have got.

I wish I had a power to fight against the criminal. And keep my country safely through the enemy.

I wish I could catch the rainbow to make the world bright and wonderful. And see the queen of the world, and hold them in my hand.

Sharing your good memories
at school
The mind behind these memory
was very cool

Your patience and understanding
cannot be undersold
Where as, your courage and commitment
Is that legend talk

The journey of life,
may takes us very further
We will never forget
Your kindness toward other

You try to care for other
You do the best you can
If anyone is in need of help
You're there to lend a hand.

It is something hard to put in words
Just what I'd like to say.
But always know you're though
in a very special way.

Through the distance in between us,
keep us still a part
There'll always be a special place
for you within my heart.

Amber & Becky's Visit

IMPORTANCE of forest

FOREST is the area which is covered by trees. If there is no forest on the earth, our life would be impossible to live. Forest serves many purposes. Forest supplies fruits and vegetables. Trees and plants hold together the soil and prevent or minimize the soil erosion.

FOREST is the natural resources. FOREST is the house of animals and birds. There are different kinds of forest to make new things. Forest are a source of essential oil and medicinal herbs. To make a medicine, the forest are used in different ways. In the industries they cut the wood to make the log, table, bench, chair, paper, rayon, matches etc are dependent on forest. The forest and water are dependent on each other.

However, the forest area is decreasing day by day due to various reasons. People have been cutting down the forest for the profit of their work. If we protect the forest for our next generation, we have to preserve them too. If we do not protect the forest, one day the forest will be exhausted. Forest has different types of trees they are: Sal, Shisau, Khayar, Saffal, Simal, sandhan etc are the trees of forest.

In conclusion, forest has economic and agricultural importance. It has been said because we should not make it late to preserve the forest. They should be preserved for the benefit of society. Country they are employed by human being.

Truth

Truth will never die
It will always be a live

No one can hide the truth.
If you tried to hide
By lying to someone the sword can be built,
If truth will come one day with a bright
That time only that liar sword
Can make your life unbelievable sword.

If you die for a truth
You are the great warrior of soul
Because you desired the meaning of truth,
Like a glory flower in soil
with a long separate root.

No one is greater than truth
Even a god,
Because you are a truth only everything is
Success like lord.

Annual News Letter

January : Longer nights ,shorter days and freezing temperature. Although throughout January it is very cold and this year we had few days off school . During this break the students learned Chinese Language from a Chinese volunteer. In the new year eve, the students were taken to the annual fair held in lakeside. The students also learned how to cook few Chinese dishes which was completely new for them . On the 25th of January, the students were taken to Pame, near lakeside for the annual school picnic .

February : Like every year, February is the month of the grand celebration of 'Tibetan New Year' . Everyone is very excited for this day because we get treats such as the Tibetan cookies prepared by the senior students under the guidance of Tenzin and other teachers.

March: This month was quite intense as all the students prepared for their Annual Examination which was scheduled on 12th of February . After the completion of the exams students prepared for the Result day or prize distribution Day by practicing few songs . The students had prepared a song about 'Mother'. Everyone in the crowd was left in tears .

April: After the distribution of result, the students were free for few days. They utilized this time to read books and learn new musical instruments. Then the new session came in and ; new books , new stationery items and excitement . Two new teachers joined the school which made the new session more exciting .On 30th of April the investiture ceremony was held where the school and hostel captains were assigned with a ceremony.

May : One month after the school commenced and the students were already learning a lot of things .We were finally able to utilize our nursery class that was under renovation The highlight of this month was that the senior students came up with an idea . They told that they wanted to sacrifice their lunch and give it to the poor . On 29th of May ,Buddha Jayanti, the students went to the market and we fed many people. Although they told us that they didn't want to eat , they enjoyed the snacks provided by the school. The first term examination was also held towards the end of this month .

June : This month Miss Tamsin Visick from Australia , former teacher at Haileybury School Australia . She taught the children some new games on how to stay focused. On the 5th of June the students of Nagajuna observed the World Environment Day. The students cleaned the entire surrounding ,not only inside the school but we went around the neighborhood and cleaned the entire surrounding .

July : We had a great time this month as Miss Becky Shipton and Miss Amber from UK had visited the school and spent two weeks. During their stay they taught the children Mandala Colouring , visited Mountain Museum and Gupteshwor cave. They also baked pizza for the children and taught basic keyboard . Their stay was very knowledgeable as the children could learn many things . Alongside them His Eminence Khensur Rinpoche of Drepung Moastery South India , visited and blessed the school.

August : Rainy season knocked the doors and we had a month break .

September: After the one month break, our first summer uniform arrived too . They were very excited to wear the new uniform. It was very difficult for them to teach them the pronunciation of the colour of the T-shirt – Khaki.

October : The Inter House Quiz Contest was held on 2nd of October . The audience were very thrilled because the participants were neck to neck with their opponent . Blue House won the contest .The Inter House Spelling Competition was held on 30th of October. This time we made it little different as the students who had participated in further activities in the past weren't allowed to take part so that others get a chance to express themselves . Though it wasn't very competitive , we could see many new faces on the stage . Blue house was again the winner .

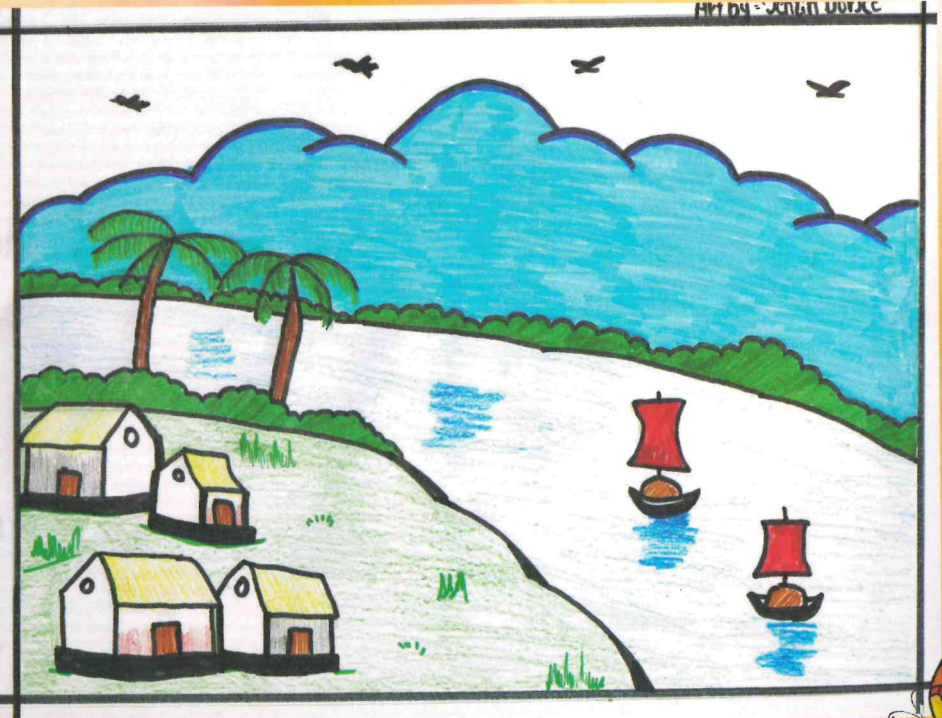

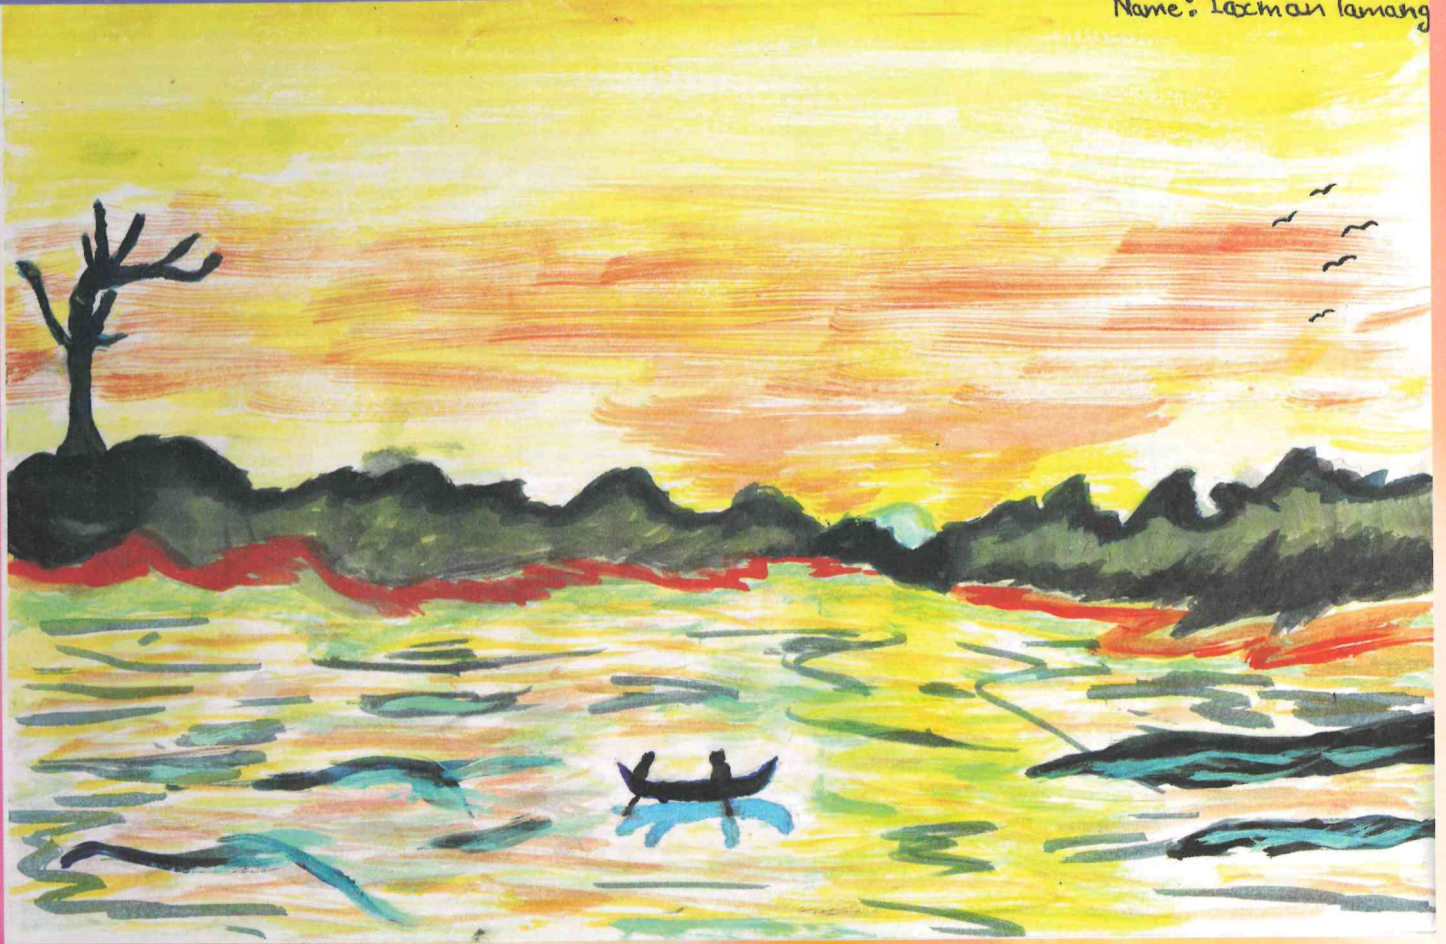

November : The Inter House Poem Competition and the table tennis tournament was held on the 23rd of November. It was very busy time as mid term examination and the Annual Sports Day were to be held . The school was visited by Miss Wu Pei Wun who taught African dance , Chinese Pinyin and Art to the students .

Health - Sona Gurung

Health is the condition of a person's body or mind. Health is basic need of the people for the development of people. If there is no health, we can not do anything. Health is wealth. There is nothing in our life which is more valuable than health.

Health is the most important part of our life because if there is no health, no success, no peace and no happiness. Hence, we are very weak and die. Health refers to the dynamic state of well-being, both in body and mind. In order to make country strong and the people must be made strong and healthy. If people are not healthy, nothing can be done. An unhealthy person cannot live a good life. Neither he can work properly in factories, nor in offices, schools or colleges. A healthy mind exists in a healthy body, so only a healthy person can think better, perform better and contribute other.

In our country, we have the tradition of treating sick people by witch doctors known as dhoni and Shanker. Though there were a few hospitals and health centre in village. To improve health education, we have started manufacturing our own medicine and organize several programme related to the health. On the other hand, health is very precious because only good health achieve their goals and enjoy their life.

In one's life there are lots of important and necessary thing to care but from it, caring our health is important to each and every person. So, do keep your health like your wealth.

Trees - Sona Gurung

See See See
That you make my life fee.
You are the protectors gift
Whom we all live.

You are my life
Who fulfill my aim
You are the best
riot for the world

Throughout the world, you give air
In this day, give me a shade
From you, everything will get
That I will never forget.

Thank you! So same from a hot
which give me a lot
You are the important natural resource
to consume each and every source.

You are the light
That make my future bright
You are the home of many birds and animals
to provide a grass to all mammals.

Job

Hari: - Where do you born?
Shyam: I am born in Manang.
Hari: Which part
Shyam: All the body part I was born in Manang.
Hari: - Brother, what's the time
Shyam: I don't know. I have no watch.
Hari: I don't ask you that you have watch. Ask that what's the time. Hari - Hari.

Education or wealth, which is greater?

The teaching or training of people is called education. A lot of money, property etc. is called wealth. They are inter related. We need both education and wealth because if we have no wealth and we don't get education.

Wealth is important because we need everywhere. Wealth makes man greedy and it always finished. We earn wealth and we use in bad way and good way. We waste wealth in bad way than good way. But if we use our education it never finished. If we have no wealth people discriminate us. Education is important because if we have no education we can't do anything we are always backward. Education shows our path. If we have no education same like we are in darkness we need education to change darkness to light. We don't know how to respect, love, they don't know how to behave others. We can teach people and our knowledge is also increase. Education can make our life easy to live in this world. We face many problems. And people also tease us.

I think both are equal and essential for our life. All people respect and love us. I think if we are uneducated we can't live in this world easily. So, it is important.

My aim in life

Many people have aim in life. Likewise I also have an aim in life. That is to become a veterinarian. I want to express my power into action to become a successful doctor and to cure the animals from different types of disease. I want to know more about the disease and cure of animals. I want the animals to be happy and to be able to play.

Most of the people become veterinarian but they don't care from their inner heart. They only achieve the status and earn money. They don't treat the animals properly. We should understand that they cannot communicate with us. Hence, we should be more careful. Our village there are less animal doctors and less hospitals. There are many animals with dangerous diseases so, I want to become an animal doctor and to treat them very generously.

I will work very hard to achieve my aim and care about these unheard voices.

Relationship Between Students and Teacher

Relationship means good behavior or connection toward each other. Teachers are like a god of a student and we have to make relationship with teachers. Teachers should be honest and helpful.

There should be good relationship between students and teachers. If there is no relationship, the students can't learn properly. We have to respect our teachers and should try to use properly what they taught us. If you are not concentrating while teaching, we should not get angry or backbite if they scold you. We should do our work when they tell us to do. If the teacher separate caste, rich and poor people they are not good. It is important to teacher, while teaching they have to teach the student properly. If there is good relationship, the student can also ask question easily. They can't ask any question if there is no connection and they will not pass an exam.

Good relationship make our life bright from dark and we can also get benefits from them.

Muskan

my school

The name of my school is Nagajuna Modern Boarding school. My school is located at very peaceful. My school is very good having two storey building. There is a playground for us to play and a small garden. There are 10 teachers who teach us with great care. I love and respect my school.

class - 4
Name - Bibek Budha

grade I. I have seen many teachers. Who teaches my best among them, my best teacher is Mrs. Phurb Dolma. She is very loving and caring. She teaches us. I get lots of knowledge from her. I feel proud to have such teachers.

Life

Life is something
that it can't buy,
But it will end up.

Learn the value of it
from milli.

And try to support it,
But never try to waste it.

Life is a journey,
which is created by almighty.

Life is made up of both
joy and sorrows;
And almighty had made
some rules to follow.
God has given the enough opportunity,
Don't insult those who are
living in shanty.

It starts from birth,
and we know it ends by death.
Whatever happens but
never try to show any flippant.
The time of life is fleeting,
Don't waste the precious
life of human by troubling.

If you can't do better
to any creature,
And avoid the mind from
that may harm others.

Life is beautiful, melody
Be glad and ready to enjoy.
Life is uncertain
But the death is certain.

Excursion to Mountain Museum

My joy knew no bounds when our class teacher announced that our class would be going to the excursion in some place following 23 August 2018. We all students are very excited and waited eagerly for the great day. And also we were very eager to visit the renowned mountain museum.

On 23 August, we all assembled in our school and left for the excursion at 8:30 am. On reaching the mountain museum, our teacher purchased the entry tickets, and we all descended the big steps leading of park. First of all we went to the library of mountain museum. We saw all sorts of interesting books. There is about mountaineering, history, culture etc. Wooden plates fixed on the wall introduced that library to the visitors. Then we visited all museum. Next we visited to Mahendra cave which is very dangerous to go inside the cave. And inside the cave we saw down fall water is falling. After that we visited Chamara cave. At that time we all are feeling hot after that we all are started to running that pain is very nice for us because at that time we were feeling hot. Inside the cave there is difficult to work because there is no any light full of dark. We visit all these cave and then we boarded the bus again and were about return to school after an unforgettable excursion.

In the evening we were so tired that all of us were almost asleep in the bus. However, our excursion proved to be enjoyable and we learned a lot about caves. I never forget this wonderful and knowledge ment movement in my life. We are thankful for the school for organising such an excursion. I hope that our school will organize such a activities in the coming years too. And thank you our teachers to take us for excursion.

Library

Library is a room or building that contains a collection of books. Library helps us to know about world, science, knowledge, etc. In my school there is a library.

I like to read many book than text book because all my answer are not there. So, I spent most of time to read books. If we go in library at leisure period we play puzzle and our mind will be fresh. Sometimes, we play games and typosalla on computer. There are many books like fairy tales, moral stories, magazine, about science, dictionary, atlas, history, etc. All of this books, I like to read fairy tales. If we read book from library we know how to speak english and we know grammatical mistake in speaking. Whenever we want to go the library it is open. If we read books we get education. We get knowledge of the world around us which we get from books of library.

From library we know how to speak english. Our mind will develop. So, I am very proud to go in library.

★ My favourite animal ★
 My favourite animal name is cow. Cow is the national animal of Nepal. It has four legs and two horns. It gives us milk. From its milk we make curd, cheese, butter, etc. They eat grass and plants. The baby of a cow is a calf. They are mammals. I like to drink its milk.

 Tomdel

HAHA HA! JOKE Laugh 😄

After having a lunch father and his son was sitting. In that time his son said.

Son: Father You know one good news. 😊

Father: What news?

Son: If I pass you promised me to give Rs 5000 😊

Father: Oh, yes

Son: Good luck Your money was saved.

Rabbit

I have one rabbit, with good habit.

I like to eat carrot, and play with parrot.

It won't eat that much, but I like him very much. It has white teeth, to eat leaves of tree. It sits with cat, and plays with mat. It is beauty of his cute.

Parrot

Sam Gurung

A day in my life

My name is Dasman Tamang. I study in class four. Today I am about to share with you a day in my life. I live in Nagajuna. We have a early start. In the morning I wake up at 5:30 am. We cannot wake up right away. But by 5:45 we make our beds and go to brush our teeth and wash our face. Later, there is a bell and we do our morning exercise for 30 minutes. After a good thirsty minute we either do our duty, that is to clean our room and bathroom or sit in the class and read story books. After 30 minutes and all the students gather in the dining hall. We pray for about 15 minutes and then breakfast is served. By that time we are very hungry. We quickly ate our breakfast and change our cloth. Then from 9:45 am to 3:45 we have regular classes. After a long day of classes, we are tired but we have served tea and refreshment. Then we either head to play or just sing and dance. From 5:45 to 7:45 we do our homeworks and revise our lessons. Then at 8 we have our dinner. We can even study after dinner but if we are tired we go to bed.
